ONIT APPTITUDE PLATFORM

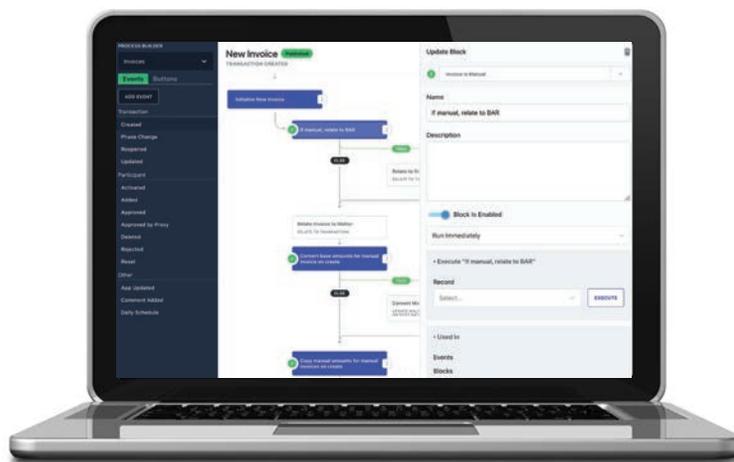

Unlimited workflow as a service platform

Onit's workflow as a service platform Apptitude, empowers organizations to easily create, modify, and deploy limitless workflow solutions that solve real business problems. Apptitude allows organizations to turn ad hoc, chaotic, inefficient, everyday manual intensive work into manageable defined processes. Whether it is reducing the amount of time your attorneys waste on NDA's, managing thousands of internal SOX controls around the world, or just getting your legal holds out of spreadsheets. With a highly relational & collaborative platform that allows even the most complex workflows to be automated, Apptitude fundamentally changes how business is conducted across the enterprise. Coupled with a centralized location for all workflows, documents, data, and collaboration, business teams and departments now have real-time visibility into every process with intuitive dashboards and reports. The application of Apptitude workflows is limited only by the users imagination, and with the patented process builder, new workflows can easily be created via drag and drop in 30 minutes or less.

ONIT APPTITUDE PLATFORM

Features

Simplify your legal and business operations and automate daily processes with advanced platform capabilities

- **130+ Solutions:** A series of related Onit Applications that work together to solve a specific business problem from a simple PTO request to a complex enterprise legal management suite
- **No/Low Code Configuration:** Prebuilt actions include base code that require low or no code to configure into workflows and solutions
- **Visual Drag and Drop Workflow builder:** Utilize an intuitive visual interface for building and managing workflows and business logic
- **Event-Driven Actions:** Customize event-driven actions that automate workflow processes
- **Highly Relational:** Support sophisticated workflows, complex solutions, and rich data models
- **Unlimited User Licensing:** Allow an unlimited number of users across numerous departments and verticals to access and collaborate within Onit

Maximize Performance with a Cloud-based Platform

Onit Apptitude is a cloud-based and deployed in the worlds most advanced cloud platform, Amazon AWS, which requires no costly IT infrastructure. With a web-based and responsive interface, organizations can access their Onit solution and business critical data from any device, anywhere, anytime.

“ We love Onit Apps! I seem to find most of my problems can be solved with an Onit App. They are very easy to get set up and the customer support team is great at responding quickly and making updates as we identify changes we need. Onit has improved our intake process and we recently found that other departments are now asking us for access to the information we have in Onit, because it is so valuable!”

- Kirsten Taitelbaum
Director of Legal Finance and Operations
DaVita Healthcare

ONIT APPTITUDE PLATFORM

Unlimited Potential

The Apptitude platform provides the foundation for solutions across your business. Apptitude has transformed some of the largest global companies to become more agile, efficient and effective.

Unlimited Solutions

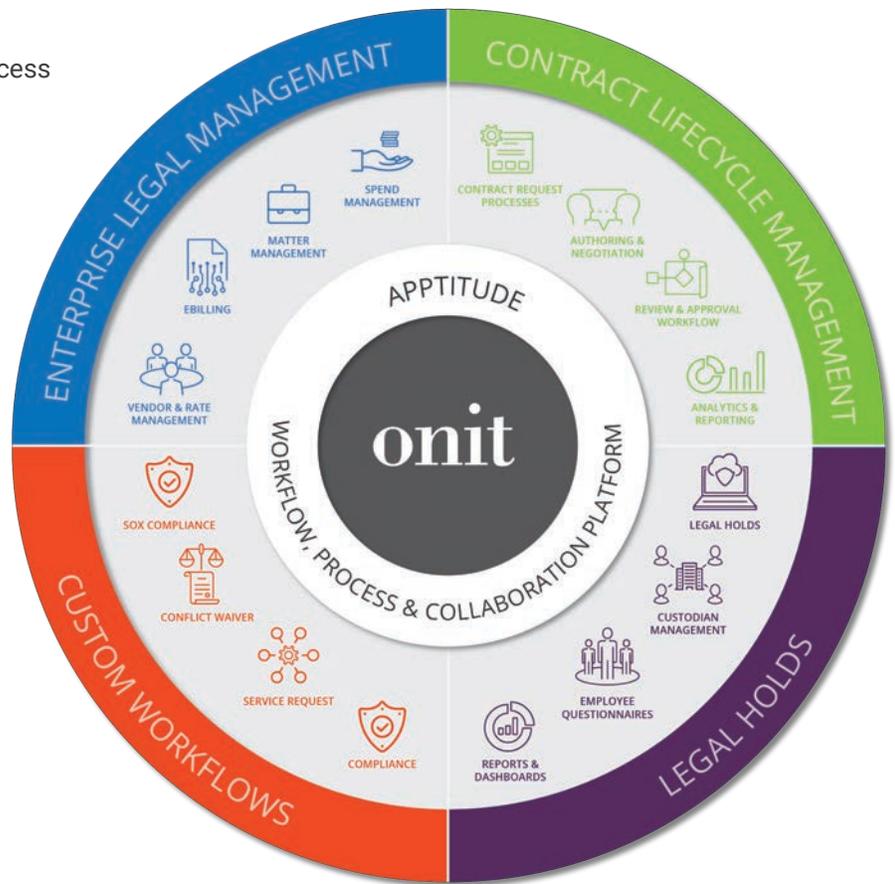

By combining robust capabilities on a highly configurable and scalable platform, Apptitude supports an unlimited number of solutions – from department-specific (i.e. legal spend management, legal holds, legal service requests, etc.) to shared solutions common across all industries (i.e. contract lifecycle management). Our implementation team, coupled with our partner network, bring decades of industry expertise to the creation, implementation and support of your solutions.

Unlimited Growth

Whether you are looking to automate one process or 15, you can configure and deploy what you need when you need it. It's easy to enhance existing solutions and add new departments as your needs change and your company evolves. Apptitude scales to support thousands of users and millions of documents, meaning you will not outgrow the Apptitude platform.

Unlimited Future

With a new Apptitude version release every month, your solutions benefit from the latest technology innovations and best practices and stay up to date with industry trends and compliance regulations. Apptitude was designed from the ground up to be a comprehensive, scalable and agile platform that has unlimited potential.
