Automate NDA

Optimize your non-disclosure agreement process with Automate NDA

Companies that wish to remain competitive must mitigate risk and maximize performance. Non-disclosure agreements (NDAs)—critical to a wide array of legal and strategic initiatives—are important tools for driving positive outcomes.

But the challenge with the traditional NDA process is that it taps internal resources that may already have limited bandwidth and tasks them with completing and managing the work. This diverts time and attention from high-value work and puts strain on your organization's talent.

Onit's Automate NDA takes the manual and repetitive process of drafting NDAs and optimizes it. By leveraging Onit's workflow and AI capabilities, Automate NDA makes drafting, reviewing, managing, and executing NDAs quick and efficient.

## 70%
Reduce end-to-end NDA processing time

52%
Time savings from reviewing NDAs

80%
Faster NDA agreement execution

Simplify and Streamline Your Workflow

With Automate NDA, you can manage the entire NDA lifecycle from renewal dates to termination notices and improve approval speed to execute NDAs more quickly. This frees up your legal team to focus on what they do best—identify and mitigate risks to your company.

- **Self-service:** Access a powerful self-service portal that lets you draft, review, sign, and store NDAs

- **Drafting:** Draft standard NDAs using simple forms that automatically route through the workflow

- **Artificial Intelligence:** Use AI to quickly review third-party NDAs, mark them up and escalate

- **Legal Intake:** Use the self-service portal to capture, manage and report on legal requests

- **Dashboards:** Detailed dashboards and reporting allow you to quickly see a snapshot view of all NDAs

- **Record Management:** Find what you need when you need it

Gain Visibility into the Entire NDA Process

With Automate NDA, you no longer need to wonder about an agreement's status or what the next steps are. Automate NDA allows you to eliminate reliance on manual processes and outdated technology so that you can execute agreements faster, more efficiently, with greater accuracy and less risk.

> " In the first month of using Automate NDA, more than 1,000 NDAs were processed. Our cycle time went down from 16 days to less than 24 hours for 90% of NDAs with virtually no lawyer involvement."
